

The Looking Glass Foundation invites you to participate in our 14th Annual Fundraiser Gala

On Friday, April 6th 2018 the Looking Glass Foundation will host our 14th Annual Fundraiser Gala: **All You Need Is Love**. With the generous support of Gala guests, sponsors and auction donors, the Looking Glass Foundation can continue the fight against eating disorders - serious mental illnesses that affect nearly 1.5 million Canadians.

Our annual Gala celebration brings those dedicated to ending the tragedy of this disease together with the friends and families who have been touched by it. With your help, we look forward to surpassing our past fundraising achievements.

Specifically, we ask you to donate a product or service to our Live or Silent Auctions -- or to consider being a Sponsor. In appreciation of your contribution, you will be recognized in print, on our website and social media, as well as during the event which hosts over 375 attendees. Please also refer to the Sponsorship Package on our Gala webpage for even more ways you'll be recognized. lookingglassbc.com/gala

All you need is love, love, love... it's more than an iconic song; it's what you give to hundreds of youth and adults who suffer from eating disorders each and every year. With your generous support and the dedication of our many volunteers, we've created a community of just that, LOVE – one that gives sufferers and their families the feeling they are no longer alone. Hope exists, recovery is possible, and we will get there... together. **Love is all we need.**

For more information on how you will make a difference in the lives of so many, please contact us anytime.

The Looking Glass Foundation, a BC-based registered charity founded in 2002, is a caring community of prevention and support for those suffering from anorexia, bulimia and other eating disorders. We are best known for opening Canada's first residential treatment facility for youth with eating disorders – the Looking Glass Residence in Vancouver (formerly the Woodstone Treatment Centre on Galiano Island). In fact, we have many initiatives in place to advance early intervention, support, recovery, and relapse prevention - not just for youth, but for men and women of all ages and backgrounds who suffer from this disease, and for their loved ones.
